## Buckner Invites Evidence of Dry Law Violations

United States District Attorney Advises People What to Do if They Want Saloons Padlocked, But Says Prohibition Is Not Only Law to Be Considered.

By Telegram to The Freeman.  
New York, March 7.—The public United States District Attorney Buckner said today was to be his greatest ally in his determination to enforce prohibition in New York.

Padlock proceedings are to be instituted against 2,000 places against which evidence already has been obtained, he declared.

"It will be a simple matter for the public to cooperate," Buckner said. "Any one may go into a cafe and order a 'Scotch highball.' If he is served what purports to be such a drink then he may make an affidavit, mail it to me and I will at once apply for a padlock injunction."

From the side of the cafe owners and managers came a declaration today that no liquor is sold in night clubs and supper places.

"The public brings its own," asserted Texas Guinan, hostess of the El Faye Club, one of the 14 places against which the Federal prosecutor took action after being in office five days.

"Why should we sell liquor and subject ourselves to all sorts of graft when we sell a bottle of ginger ale or mineral water for as much as a bottle of liquor cost before the Volstead law was enacted?"

Prohibition Not Only Law.

In a statement published in the New York Times, Mr. Buckner is quoted as saying:

"The object of my padlock policy is not only to do what I can under all the circumstances to render more effective such prohibition enforcement as we have facilities for, but to revise other Federal laws which have been black-jacked by the thousands of petty liquor cases now pending in the courts."

"The heart is taken out of my staff by the realization that many indictments found against violators of important Federal laws can never be tried unless conditions are changed, or, if tried at all, the cases will be so old and feeble that they will barely be able to totter into court and can be knocked down by the first blow of the defense. Very strong cases, however old, can be won, but the average prosecution if delayed is half lost."

"We are trying a bankruptcy fraud case next week that is more than three years old. Other bankruptcy fraud cases and commercial fraud cases are four, five and six years old. Who will say that the prohibition law is more important than the national banking law, the law against commercial swindlers, the law against stock swindlers, the pipe-line fortunes into New York from the whole country?"

Prohibition Blocks Other Laws.

"With the very small machinery at my command I want to do the best I can to enforce all laws proportionally. The absurdity is that prohibition enforcement against thousands of petty violators does not enforce the prohibition law, but at the same time it prevents the enforcement of many of the most important laws on the books."

Investigation Here Must Pay.

Ulster county is included in the district within Mr. Buckner's jurisdiction, but he will not put up his own money for investigation in the Ulster county, because personal matters will not permit response to "an encore."

The ease with which Mr. Buckner expects to obtain injunctions is expected to stimulate sales where liquor may be sold.

FOUR CHURCHES HAVE PAID THEIR QUOTAS IN FULL.

The financial report on the national campaign of the Episcopal Church in this country issued by the Episcopal treasurer gives \$429,170.68 as the total receipts for the year 1924, of that amount \$288,558.74 is budget and \$130,611.92 priorities. The total budget receipts are within \$1,225.26 of the amount received in 1923 for the budget. The report shows that eighty-one parishes have paid their quotas in full, as against thirty-four in 1922.

The four Episcopal parishes in Ulster county reported as having paid their quotas in full are: Holy Trinity at Highland, All Saints at Kingston, St. Andrew's at New Paltz, and Ascension at West Park.

THREE CRUISE TO TALK TO GARDENERS ON MONDAY

Professor Charles Chapp of the Cornell College of Agriculture, will speak on "Controlling Vegetable and Garden Insects and Diseases" at the garden house on Wall street Monday morning at 7:30 o'clock. He will speak under the auspices of the Ulster County Farm Bureau. This feature will prove of interest to all who have gardens, either flower or vegetable, and the general public is invited to attend and bring their questions.

Mayor Barker to Meet.

There will be a meeting of the Mayor Barker on Sunday afternoon at 2 o'clock, at Miller's barber shop, 204 Wall street. All members are requested to be present.

## Coolidge Facing First Big Fight

By Telegram to The Freeman.  
Washington, March 7.—President Coolidge faced the first big political test of his new administration today when the senate began formal consideration of the nomination of Charles Beecher Warren, of Detroit, as attorney-general.

Although a fight against Warren has been organized by the progressive factions of both parties, administration leaders predicted his confirmation.

Independent Republicans, the insurgent bloc and liberal Democrats, however, were combined against the appointment. The opposition was led by Senators Borah, Republican of Idaho, Walsh, Democrat, Montana, and Reed, Democrat of Missouri.

Prosecution of these cases it was pointed out, would rest in Warren's hands when his nomination is confirmed.

The opening skirmish revolved around a move to force public consideration of the appointment. This was opposed by administration leaders. They induced the Republican caucus to favor a motion providing for open sessions of the senate, which was sponsored by Senator Gooding, Republican, of Idaho.

Gooding urged that the appointment be fought out on the floor of the senate in public sessions. He announced he would renew his motion before the senate.

## Hacked Wife With Hatchet

By Telegram to The Freeman.  
Auburn, N. Y., March 7.—Mrs. Anna Nausesarek is in Auburn city hospital this afternoon with a two-inch hatchet gash on the top of her head, her husband, Frank of 3 Case avenue, is held on an open charge at police headquarters.

Mrs. Nausesarek was saved from bleeding to death when neighbors telephoned police. They said that the husband had fled from the home after striking her over the head with a hatchet.

Three squads of police threw a dragnet over the principal roads from the city. Nausesarek was picked up by Officers Carr, Conklin and Brownhill, three miles out on the North Division street road at noon.

## Smith-Lowman Debate Today

By Telegram to The Freeman.  
New York, March 7.—Governor Smith and Lieutenant Governor Lowman were guests today of the Women's City Club at a luncheon, and later were to debate upon questions at issue in Albany—among them Smith's plan for a general re-organization of state governmental affairs, including the executive budget and four year term for governor issues.

Before the City Club luncheon Lowman spoke at a luncheon of the Bar Association, voicing opposition to the Smith program on the ground that it would give the governor too great power.

## Pershing Able To Leave Hotel

By Telegram to The Freeman.  
Havana, March 7.—With the consent of his physicians, General John J. Pershing, who has been confined to his hotel room here for several days suffering with a cold and fatigue, will call today on President Zayas.

The general also will occupy the place of honor at the unveiling tomorrow of the Maine monument.

Pershing served in Cuba during the war with Spain as a major in the United States regular army.

A number of official functions have been cancelled since General Pershing's arrival here, March 3, due to his illness.

SEEK RELATIVES HERE OF DECEASED MAN

Police headquarters here received a communication from New York city police department this morning, stating that the remains of Crookham, Polish, aged 72 years, was lying in a morgue at Flushing, N. Y., and that relatives are believed to be residing in this city.

The police have failed to locate any relatives here. Any persons knowing anything about the deceased are requested to get in touch with the local authorities. In March, 1923, the deceased had an account in a Kingston Bank.

Morris Estate Settles Property.

The eight room dwelling and large lot located at 124 Cedar street near Clinton avenue has been sold by Frank S. Wyatt of the Ulster Realty Agency, for the Morris estate to Albert W. Barber and wife, who are making many improvements to the property and will occupy it as their home in the near future.

Parish Ball on Tuesday.

The Parish Ball to be given by the Episcopal Daughters of Jacob Society, will be held Tuesday evening at 8 o'clock in Maria's Hall on lower Broadway. The music will be furnished by Zappa's orchestra.

## Speakers Talk on Good-Will Sunday

The public is invited to the meeting of America's Good-Will Union at the High School Auditorium Sunday afternoon at 2:30 o'clock. Former Mayor Canfield, who is president of the New York state division of the union, will preside and speak. The principal speakers will be former United States Senator Charles A. Towne and Dr. Edward Lawrence Hunt of New York city. Senator Towne is considered one of the most eloquent speakers in the United States who served during his time. Dr. Hunt is director of the union and a nationally known lecturer and speaker. There is no solicitation of any kind. Special music will be rendered. All members of the clergy have been invited to sit upon the platform.

The above union has been formed, among other things, to cultivate good-will and friendship between the people of the United States and to focus the passion of patriotism. It is incorporated and of a national character. The program is as follows:

Presiding, Hon. Palmer Canfield. Opening prayer. Remarks—Presiding officer. Address—Dr. Edward Lawrence Hunt. Duet—The Soldiers' Chorus.

Gounod. Mrs. Wicks and Mrs. Lieske. Address—Hon. Charles A. Towne. Solo—The Story of Old Glory, the Flag We Love. Ernest Ball. Mrs. Wicks. Benediction.

## Gaudio Combs Wife's Throat

Stephen Gaudio of East Kingston was arrested by Deputy Sheriffs Ellsworth and Gaylor Friday night on a warrant sworn out by his wife, charging him with assault in the third degree. She charged Gaudio with taking a comb and drawing it across her throat, inflicting injuries. She also claimed that Gaudio at the time stated he wished it had been a knife. The officers who arrested Gaudio took him before Judge Walter Webber at Flatbush this morning and he was discharged, his wife withdrawing her charge. Gaudio was in bed when the officers arrived and placed him under arrest. He spent the night in jail.

Three squads of police threw a dragnet over the principal roads from the city. Nausesarek was picked up by Officers Carr, Conklin and Brownhill, three miles out on the North Division street road at noon.

The Sunday Radio Vesper Service to be broadcast from Ulster County Boy Scout Station, WDBZ, tomorrow, will be in charge of the Rev. William Pretzsch, pastor of the Trinity Evangelical Lutheran Church. The church choir will render the musical program. The services will start at 2:30 o'clock.

## Postal Receipts Show Increase

By Telegram to The Freeman.  
Washington, March 7.—Improved business conditions are noted in the postal receipts of fifty leading cities, which totaled \$25,643,947 in February, 1925, as compared with \$25,264,107 in February a year ago, an increase of 1.50 per cent, the postal office department announced today.

Fourth Worth, Texas, led in increased postal receipts which totaled \$125,950, an increase of 14.7 per cent.

## Sunday Radio Vesper Service

The Sunday Radio Vesper Service to be broadcast from Ulster County Boy Scout Station, WDBZ, tomorrow, will be in charge of the Rev. William Pretzsch, pastor of the Trinity Evangelical Lutheran Church. The church choir will render the musical program. The services will start at 2:30 o'clock.

INCREASE IN PAY FOR POSTAL EMPLOYEES.

By Telegram to The Freeman.  
Washington, March 7.—Postal employees throughout the country will receive in their pay envelopes March 14, an additional check covering the increased pay voted them in the new postal pay and rate bill. The pay increase was retroactive to January 1. Accounting officers of the post office department were called here Friday from all sections of the country to study the new law, which also increased the postal rates effective April 15.

GARY BRIDGE'S MOTOR BOAT SERVICE STARTS MONDAY

Gary Bridge will start his motor boat service between Rondout and points about the Rondout creek on Monday. The ice in the creek has practically all melted out.

The ice fields in the Hudson river are still holding off Kingston Point, and the ice is not interfering with the regular ferry service across the river here.

RAILROAD COMMITTEE TO TALK OVER THROUGH BUS ROUTE

The railroad committee of the common council will meet Monday evening at the city hall with G. Barton Tobow, general manager of the Kingston Consolidated Railroad, to discuss the proposed plan of the line, they need to inaugurate a bus service in the city to take the place of the Colonial division of the line.

## Attempt to Hold Up Fast Freight

Train Robbers Friday Fired at Crew of West Shore Freight Train Near Catskill—Train Speeds on With Trainmen Dodging Bullets.

Train robbers Friday attempted to hold up a fast freight of the West Shore line one mile north of Catskill and fired several shots through the caboose when the train did not stop. One of the shots missed a brakeman in the last car by only a few inches, according to the Albany Knickerbocker Press.

While passing the Coxsack station, Conductor Weststrub of Weehawken, N. Y., threw a letter to M. M. Clow, operator and ticket agent, telling him of the attempted holdup. Railroad police stationed at Ravena and Catskill were unable to find the bandits.

The train carried a valuable stock of merchandise and also hauled several empty cars and coal cars. The bandits remained concealed until the train approached the spot where they were hiding, then they appeared at the side of the track, as the train continued full speed ahead, the first shot was fired at the caboose and the brakemen hurled themselves to the floor for protection. A volley followed and windows were shattered. The crew later found a .32 caliber bullet on the floor.

The train, a through freight from Weehawken to the Selkirk yards, reached Catskill at 5:20.

At the West Shore station here no official report has been received of the attempted holdup.

## Charity Ball Easter Monday

The regular monthly meeting of the Ladies' Auxiliary of the Benevolent Hospital was held at the nurses' home Wednesday afternoon. Plans for the annual ball were perfected.

The ball will be held as in past years in the Armory on Easter Monday, which date this year will be April 13. The various committees chairwomen have been appointed and are already actively engaged.

The ladies of the auxiliary anticipate the usual successful affair, the proceeds of which are used for the praiseworthy cause of caring for charity patients in the Hospital.

## Consider Hilles For Berlin Post

By Telegram to The Freeman.  
Washington, March 7.—President Coolidge has decided who he will appoint to succeed Alanson B. Houghton as United States ambassador to Germany. It was learned here today.

The nomination is expected to be sent to the senate within the next few days.

Charles D. Hillis of New York city, prominent Republican leader, is among those under consideration for the Berlin post.

## 60 Chauffeurs Witness Holdup

By Telegram to The Freeman.  
New York, March 7.—Sixty chauffeurs of the E. Z. Taxicab Company were crowded into the company's office today while the manager, the cashier and the assistant cashier were counting \$4,500 to pay the men's wages.

"Hold up your hands," came the sharp command from two men. All hands went up. The two men took the \$4,500, ran to the street, and sped away in a touring car.

FALLS FROM SCAFFOLD WHILE PAINTING BOAT; IS DROWNED

Augustine Adria Boeljon, 32 years of age, a native of Amsterdam, Holland, fell from the propeller Newburgh of the Central Hudson Steamboat Company line, at the foot of First street, Newburgh on Friday morning about 8:20 and was drowned. Boeljon was employed by the steamboat company with others, in painting the vessel for the summer work. The men were on a scaffold on the river side and had just started their duties when Boeljon apparently slipped and fell to the surface. Grappling with the propeller, he was caught in a little while the boat was in the distance and the man's body was brought to the surface.

P. T. A. No. 7 Meeting.

The monthly meeting of the Parent-Teacher Association of School No. 7 will be held Tuesday evening at 7:30 o'clock. Miss Mary G. McCormick of the State Department of Education, will speak on the "Diet of Children." Everyone who is interested in children, whether a member of the association or not, is urged to be present.

B. Kautzmann Ad.

In the B. Kautzmann advertisement published in Friday's issue of The Freeman, Special Lot No. 1, should have read No. 1 instead of No. 2. The price of special Lot No. 1, should have been \$1.25 instead of \$1.20.

Directors' Action Remains the Same, By Which J. G. White Company Assumes Supervision and Separation of Contract Into 26 Contracts on Which Local Men Have Been Asked to Figure.

## Kingston Pastor Directing Drive

The Rev. A. S. Cole is in Binghamton Directing the Baptist Financial Campaign—Pulpit Here Will Be Supplied.

The Rev. Arthur S. Cole, pastor of the Albany Avenue Baptist Church, is in Binghamton for a few weeks in charge of the Baptist financial missionary campaign in that section of the state. The Board of Missionary Cooperation of the Northern Baptist Convention asked the church to release the Rev. Mr. Cole for this service for three or four weeks. The district of which he is in charge includes four counties and a part of another, Broome, Tioga, Chenango, Cortland and Tompkins. In this district there are nearly 100 Baptist churches. John D. Rockefeller, Jr., has given outright \$410,000 to pay the debts of the women's missionary societies, and has promised an additional \$450,000 if the churches of the Northern Baptist Convention raise as much money for missionary work as they did last year, \$6,166,000.

Only a part of this has been sent in so far, and at least four millions of dollars must be raised before April 30, when the missionary year closes, in order to secure the entire amount that Mr. Rockefeller has offered. This is the reason why the Rev. Mr. Cole and other pastors and workers have been drafted into this special service. The Baptist churches all over the country are rising up to meet the situation and to secure the necessary funds not only to obtain Mr. Rockefeller's gift, but to close the missionary year with all expenses paid.

During the absence of the pastor, the following ministers will occupy the pulpit of the Albany Avenue Baptist Church:

March 8, the Rev. Nelson Reynolds, of Scotia, N. Y.  
March 15th, the Rev. R. P. Ingerson.

March 22, the Rev. Walter Myers, of Concord, N. H.  
On Sunday, March 23, the Rev. Mr. Cole will be back in his own pulpit.

Suspended M. P. Attacks Prince

By Telegram to The Freeman.  
Dumbarton, Scotland, March 7.—Calling the Prince of Wales a "ain-compoop," David Kirkwood, suspended member of the House of Commons, again attacked the amount of money spent by the prince on his world tours, in an address to his constituents here today.

"The money that the working class produces ought not to be wasted on a ain-compoop like the Prince of Wales," Kirkwood shouted. "This young fellow ought to do some work instead of spending his time attending race meetings and dance halls."

Kirkwood was suspended by the speaker of Commons on Thursday for heckling Austen Chamberlain, British foreign minister. This action resulted in the entire Laborite body walking out of the session. However, they returned to parliamentary deliberations yesterday, although the suspension of Kirkwood still stands.

A statement sent out from New York city that the J. G. White Engineering Corporation of New York had been awarded the contract by the Community Hotel Corporation of Kingston to erect a new 100 room hotel here at a cost of \$350,000 was denied today by directors of the hotel corporation, which will own the new Governor Clinton Hotel to be erected on the Sharpe property at Albany and Clinton avenues.

Arthur J. Burns and Frank R. Powley, two of the directors, made the following statement:

"There is no foundation for such a statement. There has been absolutely no change in the plans of the directors which were published in The Freeman on Thursday, February 26."

"Under such plans, there will be 26 distinct sections of the work and materials and any person may bid on any one or more of these, as he desires."

"Local men have been asked to figure on the work, either separately or in conjunction with the laying of the foundation and any other local man who wants to submit figures may obtain the details by communicating with George E. Lowe, the resident architect."

"At the last meeting of directors, an offer made by the J. G. White Company to furnish supervision and also the contracts separated into 26 contracts was accepted, and a new contract covering such work to be done by the J. G. White Company was entered into."

"These facts were all correctly stated in The Freeman of that date and there has been no change in them."

"It is expected the contracts for excavation, concrete work and structural steel will be closed in a few days so that work can be commenced just as soon as frost is out of the ground. Other contracts will be let promptly so there will be no break in construction work."

## Bar Invited to Meet New Judge

Members of the Ulster County Bar have been invited to meet Judge James V. Coffey of Troy, recently appointed to fill the vacancy caused by the resignation of Justice Howard, Monday afternoon at 1:15 o'clock at the Supreme court library in the court house. MILL and CHAMBERS STS.  
Phone 578-W.Jews Welcome  
Feast of PurimMost Popular of Jewish Festivals  
Although Considered of Minor  
Importance—Its Story Related in  
Book of Esther.

That dramatic Jewish festival which has centered the interest of countless generations of this historic people will be welcomed Monday evening the world over. The Feast of Esther as it is called, or Purim, to use the Hebrew name, is probably the most popular of all the Jewish holidays even though considered a minor festival. The story of its origin is found in the Book of Esther in the Bible, a remarkable bit of literature if anyone stops to consider how strange it is that a book bearing the name of a woman, with a woman as the protagonist should have been included in the canon of the Scriptures, developed under Oriental influence, where woman was usually relegated to a minor position in society. It is matched, and possibly surpassed in this respect by the Book of Ruth, also named after a woman, and she not even born of the Hebrew blood.

The romantic character of Esther has held a strong appeal to the imagination because the tale holds all the elements of drama, and plays itself out upon the historic stage with a denouement which could not fail to reach the heart of Israel in oppression; the triumph of the Jew over his enemy.

To retell the story briefly: Esther is a lovely Jewish maiden reared by her cousin Mordecai, and brought to the Persian court, when the royal order goes forth for the most beautiful maidens to be brought to court (that Ahasuerus (possibly Artaxerxes) might choose a consort in place of Vashti who had refused to obey the unreasonable behest of the king that she unveil her beauty before the assembled noblemen of the court. The king may have been more than uplifted with wine, when he gave the order, but once given he had to compel obedience, and hence the dismissal of the queen and the invitation to bring in all who applied to sit upon the throne by his side. The Jewish maiden is chosen, and while nothing is said of her being known to belong to the Hebrews it seems to have been well known that her guardian was a Jew and this seems to have made no difference whatever to Ahasuerus.

The Jew, Mordecai, who refuses to pay obeisance to Haman, vizier to the king, accidentally overhears two eunuchs planning the murder of Ahasuerus and informing that monarch through his cousin, the royal life is saved. Then, in true dramatic fashion, the narrative takes up the plotting of Haman against all the Jews because of his hatred of Mordecai, and that wily minister gains the consent of the king to slay all the Jews on one day, that date being elected by lot, in the Hebrew Purim, hence the name given to the feast. But Mordecai learns of it and insists that Esther must make an effort to save her people.

Against all precedent she enters the royal presence without being summoned, but her lord and master is kindly and accepts her invitation to dine with her. Haman too is invited. The invitation is repeated, and the king seeing Haman on his knees to Esther imagines that he is in love with her, and goes into a rage. When he has humbled Haman by making him lead the horse on which Mordecai has been sat, throughout the city as a mark of royal favor, he goes still further when he learns of the plot against the Jews and has Haman hanged upon the gallows which he had prepared for Mordecai. The Jews are permitted to defend themselves on the fateful day, and all ends joyously, with the order given among the Jews that the anniversary of this redemption is to be celebrated every year by great rejoicing and especially by the sending of gifts (schelach monoth) to the poor.

In this way Purim has become the great season of merry-making, and giving charity and mask-balls. The story being read in the synagogues, and retold to the children in many forms, or played out before them on the stage of the religious school. It is not surprising that this festival was eagerly welcomed throughout the ages of persecution of the Jews, for then might they remember with joy how they had been saved in the long ago, and in that memory find hope and cheer for the future.

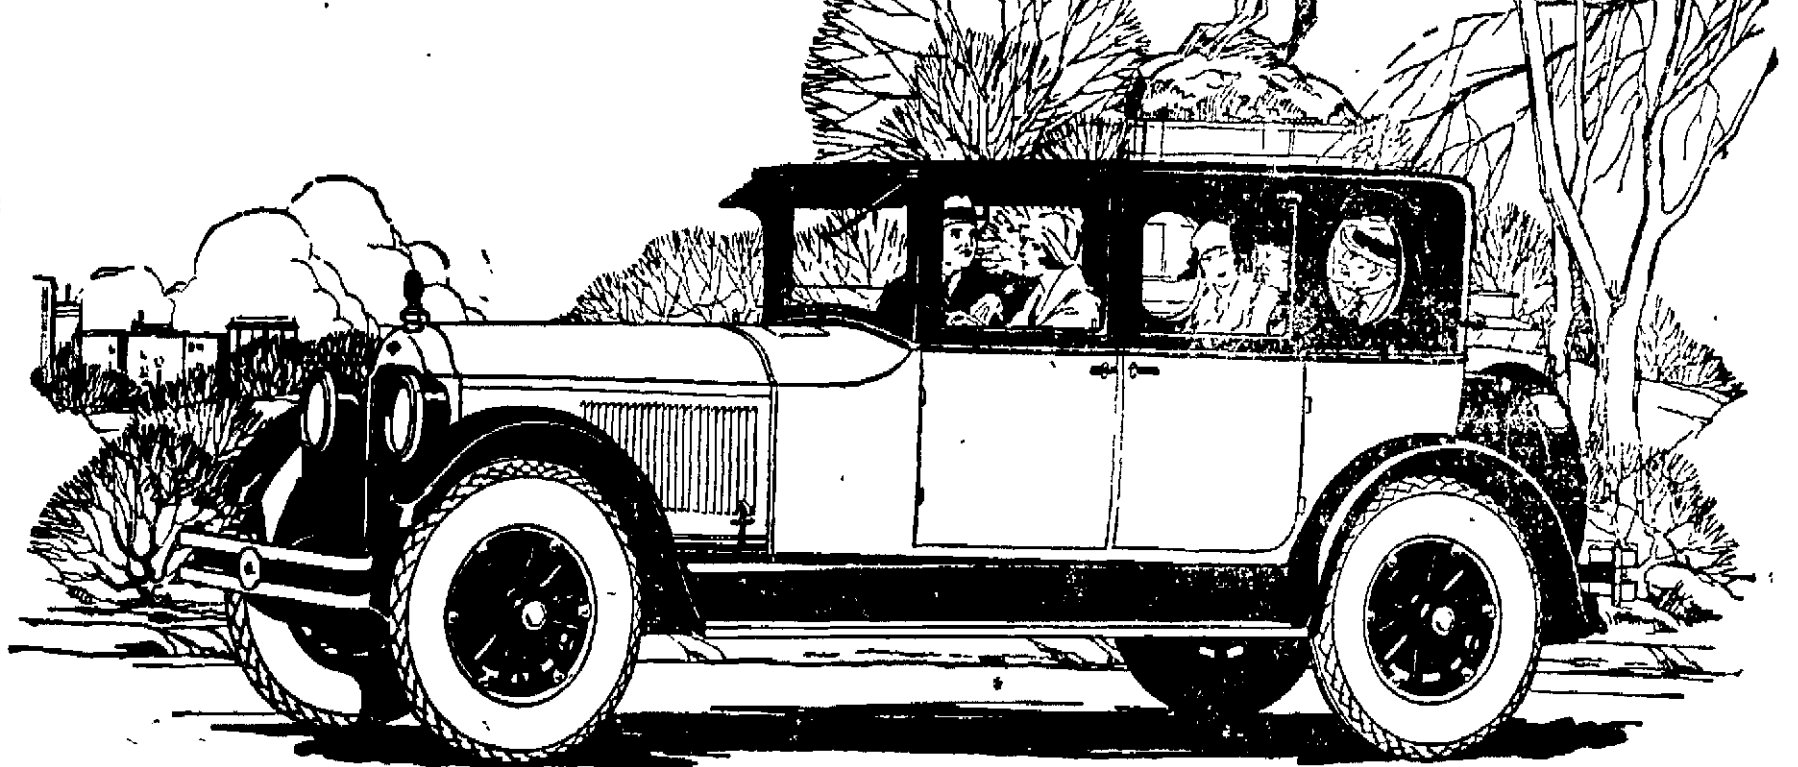

THE SCARF'S CONTRIBUTION  
TO GRACE AND COLOR

(By Eleanor Gunn.)

There are times and seasons when the absence of color is more important than a whole galaxy of new tones. This present season is not one of them, nor can it be said of it that black and white is the smartest note.

Fashion, at present, is seeing the world through rose glasses, pinkish tints being of great importance. It has a penchant, too, for degraded or shaded materials, and for designs which are heavier at the lower edge.

The New Paige  
Brougham

## As Good As It Looks!

This smart New Paige Brougham looks like a thoroughbred—and it is a thoroughbred. Its substantial quality is more than skin-deep. Under its rich finish is fine construction—for ability and long trouble-free life.

## Amazing Performance

The performance of this New Paige is startling to all at first. It is so easy—so utterly effortless. On the road or in traffic the New Paige slips silently and swiftly away from other cars. Mounts hills in high so smoothly and unconcernedly that drivers are amazed as you pass them. And on a slow pull in high where the going is hard, the magnificent power of this New Paige takes you through without a hint of labor.

## Abundant Smooth Power

Paige-Jewett engineers have made many improvements in the New Paige. New smoothness and new silence have been built into the big 70 h. p. Paige motor by a costly, dynamically balanced crankshaft. A silent chain with an automatic take-up drives pump, cam and timing shafts. It has served in Paige for 2 years without a single complaint. Lubrication and cooling have been so improved that there is no grade in all North America that can overheat the New Paige. The result of all this is new ability that lasts. Fine performance for Paige's long service-free life. Maintenance costs are ridiculously small!

## Unusual Riding Comfort

Riding comfort, too, has been improved. The New Paige rides as few other cars can. Bumps and jolts are completely eliminated. Just a gentle motion when you cross deep ruts. The New Paige's rear springs are more than 5 feet long—specially designed for the full comfort of balloon tires. And Paige's long wheelbase—131 inches—has been retained.

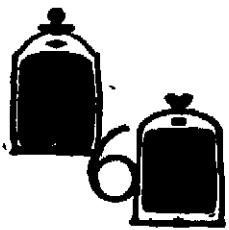

Driving the big New Paige is child's play—as effortless as riding. Finger touch guidance with ball-bearing steering spindles and special gearing for balloon tires. Stalling, jerking and gear clashing are forbidden by improvements to the saw-blade steel Paige clutch and transmission. Hydraulic four-wheel brakes (Lockheed type), optional at slight extra cost.

## Matchless Value

With all these improvements—this luxurious New Paige Brougham costs only \$2395! Never before in our history have we offered so much value. Just compare the price of this smart enclosed Paige with that asked for other fine cars. See how much more you must pay to match Paige's long wheelbase and big power. Then add to these others' prices, the cost of equipping them as this Paige is equipped. You'll realize what wonderful value we offer.

Drive this new Brougham for a few minutes and you'll agree it's "as good as it looks." (34-3)

Full equipment—Five balloon cord tires, trunk, bumpers, mudflaps, motor, automatic windshield wiper, rear view mirror, combination stop and tail light, heater—all included at \$2395 f. o. b. Detroit, tax extra.

## PERMANENT DEFECTED PERFORMANCE

dresses being white satin with silver and even the mirror—trimmings after the fascinating fashion of Louis; and reports from the South-lands must place white as usual at the head of the list of color preferences, but it is so often white relieved by color that in the glory of the color, one is prone to overlook its background.

Fashion, at present, is seeing the world through rose glasses, pinkish tints being of great importance. It has a penchant, too, for degraded or shaded materials, and for designs which are heavier at the lower edge.

this being particularly true of coin dots which are among the old favorites being revived.

A cleverly combined frock worn recently had the short tunic of coin-dotted silk, the swirl of plain silk, of course, matching the dot, but made with an inverted pleat directly in the front, so many skirts are, the material pleated in matching the blouse.

The coin-dotted scarf is another interesting item, and while on the endless subject of scarves, it is surely of interest to know that one of the greatest French artists in material, visiting this country, feels that the scarf contributes so much grace and color to a costume that it is bound to remain in fashion. So many dresses and coats, for that matter, are fashioned with an attached scarf, capable of several manipulations, that one is in danger of accepting the scarf, and forgetting to mention it.

## ELLENVILLE

Ellenville, March 7.—The regular meeting of American Legion Auxiliary, No. 111, will be held on Monday evening, March 9, at 8 o'clock.

An evening of games was held at the Masonic Temple Friday, March 6. Refreshments were served.

Sol Wilson, son-in-law of Sam Fockris of Ellenville, has an exhibition of paintings at the Civic Club, 14 West 12th street, New York. The exhibit is composed largely of scenes in and near Ellenville, and is the product of Mr. Wilson's work for the past three years. There is no admission fee to the exhibit and Ellenville residents will be especially welcome.

John S. Lathrop, son of Mr. and Mrs. J. R. Lathrop of Warren street, who is ill in an Amberville, N. Y., hospital from pneumonia, will recover, it is expected, after a complication of doctors' aid. The young man's many friends in this vicinity will be glad to learn that he is apparently on the road to recovery.

Henry Seymour of Ellenville, underwent an operation at the Veterans' Memorial Hospital Wednesday afternoon for appendicitis. The operation was entirely successful.

Miss Anna T. Hominizer of Main street had the misfortune to fall last week and sustained a sprained ankle.

## The Importance of the Wearing Surface—

A wearing-surface of slag or gravel on a roof does three things:

1. Offers sure protection against flying sparks and embers.
2. In Barrett Roofs the slag or gravel makes it possible to use far more waterproofing material than is practical otherwise. And the amount of waterproofing material used is a highly important factor in roof service.
3. The firmly imbedded gravel or slag protects against surface wear.

## Abolish Limited Auto Reciprocity

A. A. A. Launches Campaign for Full Reciprocity in Auto Registration for Entire Nation Will Eliminate Serious Handicap to Development of Motor Touring.

By Telegram to The Freeman:

Washington, D. C., March 7.—From the national headquarters of the American Automobile Association came the announcement today that there is to be immediately launched by that body a nation-wide campaign to secure for all motorists the free use of the roads without restrictions as to registration fees or license tags other than the motor vehicle taxes they pay their own states and the gas tax they now pay as they go along.

The aim of the A. A. A. is to secure by state action the abolition of the system of limited automobile reciprocity whereby the motor tourist is compelled to pay to states registration and license fees after a limited period of time, in addition to the dues paid to his own state. For many years, it was pointed out, the association has taken the position that the practice was a serious hindrance to the development of touring at the same time that it provided a legal mask for mulcting automobile owners of many millions of dollars every year and subjected them to innumerable delays and annoyances.

In Effect in 14 States.

Up to the present only fourteen states and the District of Columbia have put full reciprocity into effect. A motorist from any of these may go into any of the other thirteen and use his original state license plate so long as it is good without being required to pay for additional registration and license plates. In the remaining thirty-four states the time limit varies all the way from six months to fifteen days. Officials of the A. A. A. pointed out that because of the shortness of the session of congress just concluded, it was not found possible to secure the passage of national legislation abolishing the restriction on automobile commerce. It was therefore decided to resort to the other alternative, namely, a campaign to get the state legislatures in those states where restrictions are still imposed, to amend their motor vehicle laws by the adoption of a proviso to the following general effect:

"Non-residents of this state shall be exempt from the provisions of this act as to registration of motor vehicles and the licensing of motor vehicle operators for the same time and to the same extent as like exemptions are granted residents of this state under the laws of the foreign country, state, territory or federal district of their residence. Provided, that they shall have complied with the provisions of the foreign country, state, territory or federal district of their residence relative to the registration of their motor vehicles, and the licensing of motor vehicle operators, and shall conspicuously display the registration plates as required thereby."

Hundreds of complaints reaching the A. A. A. headquarters show that motorists feel that the practice of limited reciprocity is especially unfair in those states which have adopted the gasoline tax. This tax is now in effect in thirty-five states.

Detrimental to Development.

Commenting on the campaign, Thomas P. Henry, president of the A. A. A. made the following statement: "It would be difficult to instance another single operating factor that is as detrimental to the development of motoring today as the failure of the great majority of the states to pass full reciprocity legislation. With forty-two legislatures in session this year, American motorists should make a determined effort to relieve themselves from the burdens and inconveniences resulting from the practice of limited reciprocity."

"The era of long distance touring has arrived and there is no place for this species of proscription to which the motorist is now subjected. His resentment against unfair tolls on the automobile has been gathering volume for years and has now assumed the dimensions of a nation-wide protest. Limited reciprocity is as obsolete as the old toll gates. It makes possible the pyramiding of taxation and the motor tourist naturally regards it as legalized piracy, as simply another device to make him pay for something he has not received."

"He travels to a large extent over highways partially constructed by government money, while in twenty-five states he pays his share of road maintenance as he goes in the form of a gasoline tax."

"The advent of this tax has swept away whatever excuse there ever was for the limited reciprocity practice. Twenty-five of the thirty-four states that still have a time limit have the gas tax. This latter group has no justification for making visiting motor tourists pay registration and license fees."

New Florida Law Operates.

"Florida, for instance, levies a caroline tax of three cents a gallon and then calls upon the tourist after thirty days to take out a certificate of title on his car, obtain a set of Florida tags and otherwise comply with the Florida laws. The same procedure applies to other states such as Maine, New Hampshire, Vermont and California. These resort states would unquestionably better satisfy their tourist travel by eliminating the time limit. The money they get from the license fees of motor tourists is more than offset by the fact that the motorist who has had to fight every inch of his way to extricate himself from the clutches of fee-grabbing officials and unwarranted tolls."

"The fee-grabbing incident will always be with us, perhaps, but with seventeen million automobiles registered in the United States it should be possible to abolish the fee-grabbing system in its legalized form. One way to do it is to secure full reciprocity in this matter of registration."

"I never heard of it. Where is it found?"

"Fitchburg! But maybe you'd like a Caracul better? You know what Caracul is?"

"It's a city in South America."

"Don't be so ignorant. Maybe you'd care for natural squirrel."

"I hate squirrels, natural or unnatural."

"How about mink?"

"I love mink, but my husband won't let me have it."

"Why not?"

"He says it's terribly hard to remove beer stains from it."

"Oh, let me show you our wonderful Kolinsky."

"Is he the one who was standing near the elevator as I came in?"

"It's a fur, not a man."

"Kolinsky a fur?"

"Sure, it's a kind of Jewish polar bear... very smart."

"Where do they trap it?"

"They don't trap it. Kolinsky is a business seal. The hunter hunts it with herring. When the Kolinsky comes close to get the herring on rye bread the hunter slaps it across the face with a certified check and it's all over."

"Where does the Kolinsky come from?"

"Isidor."

"You mean Labrador?"

"Oh, yes... my mistake."

"Let's see—how many fur coats have you shown me?"

"Forty-six lady."

"Well, thank you. I think I'll go down stairs and buy a cloth coat."

(Curtain as the saleslady commits murder.)

At a certain church it is the invariable custom for the pastor to kiss the bride after the ceremony.

Now one young woman who was about to be married in his church did not relish the prospect, and instructed her prospective husband to advise the minister that she did not wish him to kiss her. The bridegroom obeyed the instructions given.

When the young man returned she asked: "Henry, did you tell the minister that I did not wish him to kiss me?"

"I did, Florence."

"What did he say?"

"He said that in that case he would charge only half the usual fee."

It is a strange paradox that, when a man hires a chauffeur, he is usually just beginning to toot his own horn.

**CLINTON SENIORS TO  
PLAY BAPTIST QUINTE**

At 4 o'clock this afternoon the Clinton Avenue Seniors will meet the Redding Street Church quintet of Poughkeepsie in the Bridge City Y. M. C. A. This game is expected to be a hotly contested battle as the teams are very evenly matched.

Tonight in Epworth Hall the Clinton Avenue Seniors will return home to meet the Albany Avenue Baptist quintet which has a win over the "Boys in Green." The Seniors are determined to get revenge for their past defeat. The regular team will start both games. Hyatt and Sargent, forwards; Chipp, center with Dietz and Slater or Dingman, guards.

This game will start promptly at 8:30 o'clock with a preliminary game at 7:30 o'clock between the Owls and the Minute Men. A large crowd is expected to witness the second game of the series so arrangements are being made to accommodate a large number.

**FATHER LARKIN HAS SOLD  
CHURCH SCHOOL PROPERTY**

St. Gabriel's parochial school property in New Rochelle has been sold to Samuel Brenner, a New York real estate operator. It is expected that the property will be used for largest motion picture house in Westchester county. St. Gabriel's Church, of which Father M. J. Larkin, a brother of Dr. John F. Larkin of this city, is pastor, is planning to build a new school next to the church property. The property sold was held at \$650,000.

It will save millions of dollars to the motorists. It will eliminate a mask under which many other abuses creep in and it will prove of incalculable benefit in developing good feeling in this period of tremendous motor touring expenditures.

## Today We Celebrate

THE FIRST WOMEN JURORS.

The inauguration early this year of "Ma" Ferguson as Governor of the Lone Star State brings to mind the fact that women in the West have played a larger part in the civic affairs of their communities, and for a longer time than their Eastern sisters.

For instance, in the effete east we are still arguing as to the fitness of women on juries, etc., while out in the State of Wyoming they had women on the grand juries as early as fifty-five years ago.

The first grand jury which included members of the weaker sex was impaneled at Laramie, Wyoming, 55 years ago today, March 7, 1870.

The territory of Wyoming was organized in 1890, out of parts of Dakota, Utah and Idaho, and one of the first official acts of the new territorial government was to grant women the right to vote and hold public office. Wyoming thus ranks as the first of the states to give full suffrage upon equal terms with men to the ladies.

Colorado followed in 1893, Utah in 1896 and in the same year Idaho, Washington followed in 1910, California, Oregon, Arizona and Kansas in 1912, and the Empire State in 1917.

ANNIVERSARIES.

Gibraltar, the great rock fortress that guards the entrance to the Mediterranean, was ceded to England 211 years ago. Fifty-eight years ago today the Fenian uprising took place in Ireland, and was suppressed by the Royal Irish Constabulary but in the late "affair" the tables were turned and the R. I. C. suppressed permanently by the Sinn Feiners. Luther Burbank "horticultural wizard" was born on this date, 1849.

DEATHS.

Dinah was the only daughter of the patriarch Jacob. Her reduction by Prince Shochem, his honorable proposal of repairing the injury by marriage and the preservation of his by the treachery and barbarity of her two bloody brothers, Simeon and Levi, are recorded in Gen. XXIV. But as every character in the Bible has its mission, as an example, or warning, Dinah's case was probably intended as a warning to the young of her sex against levity and of members and eagerness for society.

"She went out to see the daughters of the land," the result of her Levite's son, was her own ruin, and the injury to her brothers. The story of her death is a sad one, and a warning to the young of her sex against levity and of members and eagerness for society.

## K. H. S. Nosed Out Newburgh Team

**Foul Shot By Vogel In Closing Seconds Gives Local High Victory—One of the Best Contests and Very Largely Anticipated.**

Friday evening in the gymnasium of the Kingston High School a great amateur basketball game was played between the teams of Newburgh and Kingston High Schools. The contest was won by Kingston to the tune of 15-14. Several hundred fans were in attendance.

Shortly after the initial whistle blew Newburgh was at the big end of a 3-0 score. Vogel, the K. H. S. left forward, responded to the pleas of his fellow school-mates and caged a beautiful field goal. Harry Kelleher the other forward then came through with a clean foul tying the score. The first half saw-sawed back and forth and when the whistle blew Kingston was ahead 7-5.

**Bible Prophecy Realized.**

The third quarter ended with a 9-9 tie. When the fourth quarter opened Newburgh led by Calver quickly took a three point lead. There were but four minutes left to play when the time-keeper's whistle blew and Isaiah's prophecy, that "a little child shall lead them," was fulfilled. The crowd hushed, as Vogel, the smallest player of the DUSO League replaced Vogel in the K. H. S. line-up. Vogel put new life in his teammates and three minutes later caged a clean foul point which clinched the game for the Colonial City boys. As the play was continued Tetley caged a field goal which was followed a minute later by a four point by Kelleher. The score stood 14-14 with one minute to go. A newburgh player fouled Vogel within fifteen foot mark. The game depended upon his accuracy and he knew it. His first throw was close but rolled out. On his next and last try Vogel came through, caged the foul and won the game, for immediately after the final whistle blew.

**A Record Crowd.**

Without a doubt the largest crowd the K. H. S. gymnasium ever accommodated witnessed this game.

The K. H. S. band under the guidance of Mr. Spaulding contributed much to spirit and success of the Kingston supporters. Surely a great deal of the success of their team is due the loyal student body of the local high school. Too much credit cannot be given Coach O'Leary for the fine way he has piloted his team this year. Referee Wood handled the game to perfection.

Preliminary to the varsity game the Honor five of Kingston defeated the K. H. S. faculty five by a 9-8 score. This was a very interesting and close game.

**Taborski Adds Two More.**

By Telegraph to The Freeman.

New York, March 7.—Frank Taborski today had maintained his record for consecutive victories in fact, as the result of a double victory in the National Championship Pocket Billiard League yesterday.

Taborski defeated Charles Harmon 100 to 33 and 100 to 18 in the afternoon and evening games for 23 straight victories. This is two more than the record made by Ralph Greenleaf, champion.

The White Sox have signed another prospective shotstop. He is Clyde Reinfrew, who hails from the Pacific coast, where he was a whizz with the semi-pros.

The University of California was the only football team on the Pacific coast to finish the 1924 season undefeated. It makes their fifth year without a defeat.

Harry F. Mason, a 17-year-old semi-pro star of Frankfort, Ind., has signed a contract for a try at either first or second base with Burlington of the Mississippi Valley league.

Steeplechase jockeys riding under the jurisdiction of the National Steeplechase and Hunt association the coming season will be compelled to wear the safety fiber helmets which were introduced in this country a little over a year ago from Australia.

## Big Moments In Sport

By Telegraph to The Freeman.

New York, March 7.—The record books carry the name of Chick Evans as national amateur golf champion of 1920 and show him achieving the distinction by the generous matter of 7 up and 6 to play over Francis Ouimet, his opponent, on the final round. But the record books never tell a story. If they did, they would show that Evans was a finalist only by the grace of God and as game a rally as ever a golfer staged.

If events had moved forward as fate seemingly intended, Evans wouldn't have survived the first round of that championship. He would have been eliminated by Reggie Lewis, a young man of great possibilities, but too much wealth for the good of his athletic ambition.

Coming to the thirty-sixth and what should have been the final hole, Lewis was one up on the champion of 1916. Reggie drove straight down the fairway and, when Evans hooked into a trap the gallery looked for the worst. Its fears became a certainty when Chick played out into the woods while Lewis played his second fifteen feet from the cup. Evans then pitched on, about thirty feet from the pin.

That exchange of compliments left the situation thus: Evans was one down on the final hole, his ball was "away," meaning that Lewis's was nearer the cup, and his strokes totaled three to Lewis's two.

The latter needed only a half on the hole to win the match. Seemingly that was the worst he could get. Evans, a notoriously poor putter, arose to the occasion for once. He waited a long, winding putt that climbed and drifted over the undulations of the green right up to the mouth of the cup and—down it went! A par four.

**Lewis Fails.**

Lewis had only to run his approach putt well up to get a half and victory. He didn't. Instead, his efforts rolled five feet beyond the hole and his effort to sink the next one was very unscientific. It stopped eighteen inches from the cup and Evans breathed for the first time in a minute and a half. Extra holes!

They meant that everything favored Evans, the better and more experienced golfer. But Lewis was far from through. For four more holes he matched stroke for stroke with Evans, often bringing miraculous recoveries from the rough, but on the forty-first green Lewis's putting touch again faltered and when he needed three putts to Evans's two, the match was over and the day saved.

Some of the stars who followed the match would rather have had it otherwise, however, for Evans beat Bobby Jones in the semi-finals and Ouimet in the finals on his way to his second amateur golf title.

By Telegraph to The Freeman.

Pittsburgh, March 6.—Elsie Mueller, of New York, broke the women's indoor world's record for the mile here last night in the premiere event of the International ice skating meet with the team of 3:19 3-5. The previous record of 3:50 2-5 was made by Miss Gladys Robinson at Milwaukee in 1922.

Charley Gorman, national outdoor champion, of St. Johns, N. B., tied the world's record of 37 3-5 seconds for the 440 yard dash.

## Dempsey Must Answer Defis

Boxing Commission Demands Action on Challenge Posted by Willis—Promoter With a Load of Iron Men Will Settle the Affair.

By Telegraph to The Freeman.

Los Angeles, March 7.—Neither Jack Dempsey, heavyweight champion, nor his manager, Jack Kearns, were a bit excited today at the demand of the New York Boxing Commission that Dempsey reply to the challenge filed with that body by Harry Willis, negro.

"I'll fight Willis; bring him on," said Dempsey. Kearns declared he would be a lot more excited if he thought there were a possibility for a Dempsey-Willis fight in New York and thereby "a pot of dough."

"We offered to fight Willis once before when he put up a \$2,500 forfeit," said Kearns. "Muldoon was the chairman and he taboed the match."

"The commissioners are funny. Why should they move me around like a man in a checker game? I have \$1,000,000 at stake in Dempsey and they have nothing at stake."

"What the New York commission should do is to dig up a promoter with a lot of dough who wants to stage a Dempsey fight. It's getting sickening to read that Dempsey is going to fight every Tom, Dick and Harry, here, there are everywhere all bunk."

"Let's have some promoter come forward with a few—quite a few—hundred thousand iron men and then there will be a fight—against Willis, Gibbons or anyone."

**Time Limit Expires Tonight.**

New York, March 7.—An answer was awaited by the New York Boxing Commission from Jack Dempsey today on the attitude of the heavyweight champion to the challenges hurled at him by Harry Willis and Tommy Gibbons.

The boxing officials have sent a telegram to Dempsey giving him 21 hours in which to take some action on the Willis and Gibbons defis. The time limit expires this evening.

**Find "Dodo" in Golf**

Utah golfers are anxious to know just what to call a 2 on a par 5 hole, and for the time being they have decided that it is a "dodo." On the Salt Lake Country club course recently Bob Simpson, club professional and holder of the Utah open title, made an exceptionally long drive from the tee and then holed his mangle approach shot. Many golfers speak of this as a "cuckoo."

**Hurdle Race in Final Stage.**

By Telegraph to The Freeman.

New York, March 7.—With the six day hurdle race entering its final stage, the three leading teams had covered 2,164 miles 8 laps at 9 o'clock this morning, the 123rd hour of the grind. Other teams were two to four laps behind. The record is 2,522 miles seven laps made in 1914. Five teams dropped out of the grind over night, leaving only nine combatants in the race.

## One of Best Things by Governor Tener

Many baseball men, past and present, gathered at the testimonial recently given in Pittsburgh for Barney Dreyfuss, among them being John K. Tener, former governor of Pennsylvania and for a time president of the National League. Tener's presence brought out a story from one of the speakers which showed he has never forgotten the days when he was a pitcher for the Chicago Cubs.

When Tener was governor, so the story goes, a certain member of the house was very earnest about a bill he had fostered, sponsored and treasured. This bill finally came up for Tener's signature and he signed it.

The house member was so thankful that he couldn't find words to express his gratitude to the governor. Meeting him personally he said: "Governor Tener, I think that's one of the best things you ever did."

The governor looked into the eyes of the lawbreaker for a moment, then retorted: "You've got it all wrong—I once shut out the Giants."

**LIMITED-OLYMPICS URGED BY BRITISH**

Shorter and Speedier Program Is Favored for Games in 1928.

Great Britain intends to take the lead in advocating a shorter and speedier Olympic program at the 1928 games which will be held in Amsterdam, Holland. The first steps to bring this about are likely to be taken when the International Olympic committee, the National Olympic committees and the international associations, which govern the sport in each country, send representatives to the meeting at Prague in May.

That there is a general feeling the games should be shortened and that certain sports should be eliminated from the program is a belief held strongly by British athletic authorities. One plan to eliminate some of the sports which were included at Paris, and which caused the games to be extended and to contain many events that were little appreciated, is to have countries vote on what sports may be admitted, and no event will be included which has not the vote of at least six interested countries. How far this plan will get remains to be seen, the British authorities admit.

Preliminary heats and preliminaries leading up to finals in events that heretofore have not been classified as major ones may be curtailed or entirely eliminated where the sport itself is not deleted, according to another plan which is being advocated in Europe. Looking eight years ahead, England is not certain that it will be able to send a very large team to the Olympic games to be staged at Los Angeles in 1932. The cost and the inability of members of the English team to spare the time necessary to make such a trip are factors which at present are causing grave doubt in England on this point.

However, England will send as large a team as it possibly can, pointing out that nothing less is due America, which has sent teams to every Olympic games and has sent teams that were truly representative. Other European countries are considering the same point, and unless the intervening years improve conditions it may be that Europe's representatives at Los Angeles will be considerably less than at Paris or which will compete at Amsterdam in 1928.

**Sport Notes**

Harry Redman, slugging outfielder, has signed his contract for the coming season with the Detroit Americans. The contract is for one year.

Further Ray Sanders, obtained by Milwaukee from Columbus in a trade whereby Fletcher Nelson went to the Ohio club, has signed his contract.

A new steeple course will be built in the infield of the Trenton (N. J.) fair grounds half-mile track and a two-day meeting will be held June 11 and 12.

## Ulster Heights School Destroyed

The school house at upper Ulster Heights, District No. 15, burned to the ground early Thursday morning. The cause of the fire is unknown. Henry Lauber first discovered the fire, but there was nothing that could be done and the building and contents were totally destroyed. Insurance amounting to \$350 was carried. The fire was discovered at 6:30 a. m., and no one was in the building. The twenty pupils of the school are now being instructed in a room in a nearby house.

## Care Needed to Keep Plants in Good Health

Gardeners are occasionally asked to inspect unhealthy window plants and to advise concerning their treatment. Very often it is found that the ill health of the plant is due to mistaken kindness on the part of the owner. For instance, it is deluged with water day after day, with the result that the soil turns sour and the plant becomes moribund. Another not infrequent cause of trouble may be traced to erratic watering; that is, daily attention for a time and then a period of forgetfulness, during which the unhappy plant receives no moisture, says Gardening Illustrated. A third cause is not uncommonly traceable to the fact that the plant is placed directly in a draft. It is not, as many suppose, the easiest matter in the world to keep window plants in good health, and it is only by patient attention and close observation that the cultivator learns the exact requirements—the likes and dislikes—of individual varieties. Careful watering, occasional weak doses of stimulant and, in the case of aspidistras and other fine-foliated plants, occasional spongings of the leaves, will go far toward success in the case of pot plants.

## Some Observations on Man, and His Helpmate

"There is only one test of a man's character—his attitude to women." "A man hates a woman to be remarkable, not because it renders them both conspicuous, but because it lessens his chance of being so." "To find out whether a man is worthy of a woman's consideration from you, watch his attitude to women who are older and poorer than himself, and see him in a moment of unexpected success. Even then you can't be quite sure, for whereas women sometimes pose before other people, men pose all the time, and particularly to themselves." "It is highly inconsiderate of any wife to be unwilling to spring at once into the posture her husband wishes her to adopt; to be kittenish when he wishes to toy, adoring when he desires to soar, submissive when he elects to swear, and aspiring when he requires to converse as with an equal. It is just like a woman to have moods of her own at such a time."—From "Mere Man," by Honor Bright.

## FLORIAN TRIO CONCERT

**BEST YET IN SERIES.**

The second concert in the series of three concerts being given by the Florian Trio—Mrs. Cubberly, violinist; Jacob Mollett, cellist; Harry P. Dodge, pianist—at the Y. W. C. A. gymnasium Thursday evening, was one of the best yet given by the trio. This was particularly true of the trio itself, and as far as the soloists go at these concerts, the program afforded by the trio does not need an outside soloist to make it complete. Thursday evening's program began with a Mendelssohn Trio, No. 1, Op. 49, Allegro; Andante; Scherzo; Allegro. This trio throughout was perhaps the best played trio yet given by the Florian Trio, for there was an increasing "oneness" of the instruments that was pleasing to note. The interpretation of the opening Allegro; the lovely Andante; the piquant Scherzo and the brilliant closing Allegro was also exceptionally good.

Miss Palmer, the soloist, possessed a soprano voice of more than ordinary power and compass but for the most part her singing impressed one with the musicianship rather than her interpretation, especially of the romantic songs. She sang first a group of German songs, "Die Lotus Blume" by Schumann; "Helden Ruosen" by Schubert; "Allerseele" by Strauss; and "Der Schmied" by Brahms. Her encore number was "Passing By" by Purcell.

The two shorter numbers played by the Trio, "Ave Maria," by Cesar Franck and "Napolitana," Op. 105, No. 3, offering such a marked musical contrast, were very enjoyable from every viewpoint, the "cello work being particularly good.

In the first of the second group of songs by Miss Palmer, the first one, "My Love is a Muleteer," by di Noguera was especially well suited to her voice and style and was enthusiastically applauded. The other songs were, "Songs of the Chimes," by Worrell; "The Catbird," by Clockey; "Invocation," by Rogers, and "Love's in My Heart," by Woodman. She sang as an encore, "A Brown Bird is Singing," by Wood.

The program closed with a trio by Arensky, Op. 32. The tonal effect of the violin in the "Allegro Moderato," was remarkably good, giving a special richness to the lovely figure which appears either in full or reminiscently throughout the entire composition. The Scherzo was good and the Elegia especially appealing, while the Allegro non Troppo which closed both the Trio and the concert, was given an excellent rendition brilliant and well interpreted.

The next and last concert will be on Thursday evening, April 2nd, when the soloist will be Emilie Hennig, contralto.

## National Revenue

The principal sources of revenue of the United States are from excise duties on imports and exports, taxes upon liquor, tobacco, certain luxuries, such as theater admissions; and income tax, which is at present by far the greatest source of revenue. No part of the taxes raised by the states is turned over to the federal government.

## Blessings of Quarantine

"I wish to thank the city authorities for quarantining my family and me recently for three weeks because one of them had smallpox. During that time my wife caught up with her sewing. We had three square meals every day, as no one came in and she was not permitted to leave. We enjoyed three weeks of good night's sleep, and best of all, a cousin with four children, who had arranged to visit us, saw the smallpox sign on the door and left town so scared that she will never come back again."

The above letter of thanks was received by a city health department recently.—From Hygieia.

## Suspensions Confirmed

The story is told of an engraver in the government printing shops at Washington who, at the time the first \$20 yellowback gold certificates were issued received his salary in these new bills and decided to take a short trip to New York.

When paying his hotel bill in New York he handed the clerk one of the yellowbacks, whereupon the clerk turned it over several times, then refused to accept it as he could not accept it, saying that he had never seen such a bill and thought it of no value. "Why," said the engraver, "Of course it's good. I made it myself just last week."

"That's what I thought," returned the clerk as he rang for the house detective.—Forbes Magazine.

## Submarines

There are a number of things which make a submarine stay at varying depths in the water. First, this depends upon the size and weight of the boat; second, the density and condition of the water, and third, the mechanism of the boat. Some are built to go deeper than others. The coast submarines are constructed so as to stay at a more shallow depth. Seagoing submarines are constructed so as to remain at a depth of from 200 to 300 feet.

## Cloth Made From Bark

A material made from the bark of the wild mulberry, is beaten out with wooden mallets and decorated with designs made from vegetable dyes. A canopy of tapa cloth is used by a widow in Waukeia when she crawls on her hands and knees to make her daily visit to her husband's grave. She is hidden from the eyes of the villagers by a canopy of tapa cloth.

## Suffer in Captivity

Some wild animals are so fearful in captivity that their lives are shortened materially. This is true of foxes and monkeys. Elephants and snakes do not seem to suffer much from captivity, but are strongly inclined to long lives in any environment. The mortality among wild animals in zoological parks is very high.

## FAMOUS FORTS IN U. S. HISTORY

By ELMO SCOTT WATSON

### Past It Ran the Historic "Road to Oregon"

To write the history of the great West without mention of Fort Laramie would be like playing Hamlet without the melancholy Dane. Few posts have played a more stirring part in the story of the frontier than it. From the date of its establishment in 1834 by Robert Campbell, who named it Fort William in honor of William Sublette, his partner in fur trading, down to the end of the Sioux wars, Fort Laramie was always an important center of activity in the northern plains. The American Fur company renamed it Fort John, in honor of John Sarpy, one of the partners in that company. But even before they dismantled the post and moved it a mile further up the North Platte, some time in the middle 40's, it became known as Fort Laramie, thus helping perpetuate the memory of a certain La Ramie, an early French-Canadian trapper who had lost his life in an encounter with hostile Indians near there.

Although Fort Laramie was one of the best known rendezvous of the old-time mountain men, the most important era in its history began in 1849 when the government purchased the fort from the American Fur company, and it became the military sentinel at the eastern foot of the Rockies. As such it saw that epic migration, the long trains of "covered wagons" go winding past along the Oregon trail, bound for Oregon or California.

The Fort Laramie of a later period was fully as important as it was in the fur trading and emigrant days. Here in 1851 gathered 10,000 Indians of the plains to make a treaty guaranteeing safe conduct for the emigrants, a treaty which was soon reduced to a scrap of paper; from Fort Laramie in 1865 was begun the road to the new Montana gold fields which brought on the Red Cloud war of 1866-67, and the next year Fort Laramie saw the signing of another treaty of peace in which the great Indian leader achieved his greatest triumph by forcing the commissioners to grant him virtually everything he asked.

When war broke out again in 1870, Fort Laramie was the center of activity for the military expeditions sent against the hostile Sioux and Cheyennes, but when that war was over the principal reason for Fort Laramie's existence ended, and from that time on its glory and importance waned.

There will also be a short sketch entitled, "No News," given by Mae Dolinken and Harry Williams. Orchestra selections will be played between the acts and ice cream and cake will be on sale after the entertainment.

## Perfected Time Keeping

The basis of reckoning standard time at the United States naval observatory is transit observation of the stars. The observatory has three standard clocks running in a constant temperature vault, electrically wound and sealed to keep the air pressure constant. Meridian circle observations of selected stars are taken regularly on clear nights and from these observations the errors of the standard clocks are determined and corrected.

## About the Folks

The many friends of Mrs. Charles A. Hungerford in this city will be pleased to learn that she is improving from a slight attack of paralysis with which she was recently afflicted in New York. Mrs. Hungerford, who resided for several years at the Eagle Hotel when owned by her husband, made a large number of friends here.

## WOMEN PLAN TO ATTEND COMMON COUNCIL SESSIONS

Some eighty representative women of Kingston from civic, religious, educational, patriotic, fraternal and philanthropic organizations and others not representing any organization met at the Y. W. C. A. on Friday afternoon in the interest of good government in this city. Mrs. C. N. Reed acted as chairman of the meeting and Mrs. A. Ray Fowler as secretary. After hearing from the committee which waited upon Republican County Chairman Philip Eitinger, Mayor Block and State Democratic Committee Chairman Schrick, considerable time was devoted to the consideration of the most advisable ways and means of forwarding a good government movement. It was finally decided to work through ward committees, having joint chairmen of one Democratic and one Republican woman whose duty it shall be to arrange for at least two women of her party to attend the meetings of the common council and thus make it possible for the women of the community to become acquainted with the workings of that body and the active efficiency of the various aldermen. Occasionally, as conditions may seem to require, these chairmen of the wards will meet with Mrs. Reed, chairman of the good government committee of the Federation of Women's Clubs, which sponsored this movement.

**Postmaster at West Park.** A Federal civil service examination for the position of postmaster at West Park was held at the court house today, in charge of Harry LeRoy, the local examiner. Three took the examination, two men and a young woman.

**P. T. A. No. 2 Meeting.** The Parent-Teacher Association of School No. 2 will meet Monday afternoon, at 2:30. Members are requested to pay outstanding dues. The speaker of the afternoon will be Clarence B. Dumm of the Kingston High School faculty.

**Clermont Hall Dance.** The regular Saturday evening dance will be held tonight at Clermont Hall.

**Refused Allegiance.** Robert Tombs, Confederate secretary of state in 1861, and general in the Confederate service, went abroad after the war to live, but returned in 1867 and refused to swear allegiance to the United States government.

WALTER KOEHL, Grand Regent.

## Caucus Approves Ouster Order

By Telegram to The Freeman. Washington, March 7.—Over the protests of Senator William E. Borah of Idaho, and other Republicans, a new fourth party was created in the senate today when the LaFollette insurgent bloc was driven formally out of the Republican party and assigned to committees as "Independents."

This ouster order was approved by the Republican caucus and submitted to the senate for confirmation. At the same time the Democrats proposed their new committee assignments, in which no punishment was meted to Senator Burton K. Wheeler, of Montana, who bolted his party to run on the LaFollette third party ticket last November.

## LOCAL DEATH RECORD.

Recent Deaths and Funerals of Persons in This Vicinity.

Helen M., wife of William Schryver, died Friday at her home at Ulster Park. Funeral private. Friends wishing to view the remains may do so this evening, between 7 and 9 o'clock.

Peter J., son of Mr. and Mrs. Anthony Warion, and brother of Edward and Mary Warion, died in this city Friday. Funeral from the late residence, 124 Newkirk avenue, on Monday morning, at 9 o'clock, thence to the Church of the Immaculate Conception, where a requiem Mass will be offered for the repose of his soul. Interment in the family plot in Mt. Calvary Cemetery.

Norman Carle died Friday at his home, No. 41 Elmendorf street, in his 71st year. He is survived by his wife, one daughter, Mrs. Anna J. Boove of Yonkers, and six brothers: Rufus of this city, Lansing, Nathan, James E., Wilson and Lyman Carle, all of High Woods. Deceased was a member of the High Woods Reformed Church. Funeral from the late residence Sunday afternoon at 2 o'clock. Interment in Mt. Calvary Cemetery.

The funeral of Anna Lasher, wife of George Van Anden, Sr., who died on Friday, will be held from the late residence, No. 75 Main street, on Monday afternoon at 2:30 o'clock, with interment in Wilkwyck Cemetery. Mrs. Van Anden for many years had been an active member of the First Dutch Church and the funeral services will be conducted by the Rev. Lucas Boeve, pastor of the church. Besides her husband she is survived by three sons, William C., George W., and Frank Van Anden, and two sisters, Mrs. Charles Manville and Mrs. Edward W. Smith, both of Naugatuck, Connecticut.

Crooby E. Kelly, well-known in Kingston, died Saturday, February 28, at Fleischmanns, aged 68 years. For many years he was engaged in the lumber and contracting business. Among surviving relatives are a son, who is a medical student at Albany, and a daughter, Mrs. W. Stephens of Stamford. Mr. Kelly a number of years ago purchased a large plot of ground between Main street and Lucas avenue and Washington avenue and Johnston avenue, which he drained and then laid out Lafayette avenue and Emerson street. Many lots were sold by him and a large number of houses built in that section.

Mrs. Margaret Radel Bleitzhoffer, beloved wife of Benedict Bleitzhoffer, died this morning at her late home in Connelly. Mrs. Bleitzhoffer had been a long respected citizen of Connelly, having been a resident of that place for the last thirty years. She is survived by her husband, four sons, Joseph of New York city, John of Weehawken, Benjamin and Frank of this city; one sister, Miss Margaret, at home; two brothers, Joseph Radel of Newark, N. J., and John Radel of Connelly. Funeral from her late home on Tuesday morning at 8:45 and at 9:30 from St. Peter's Church, where a requiem Mass for the repose of her soul.

Mrs. Peter D. Curley of Partition street, Saugerties, died Friday morning. Mrs. Curley was stricken while attending Mass at St. Mary's Church, Saugerties. Mrs. Curley apparently was enjoying good health. She was highly esteemed and had numerous friends in this city, who will be deeply grieved to learn of her death. She was a member of Court Santa Maria, Catholic Daughters of America. Besides her husband she is survived by two daughters, Sarah and Mary, and two sons, Daniel and Maurice. On Sunday afternoon the members of the Catholic Daughters of America will recite the rosary at the home of the deceased. The bus will leave the Kingston Hotel at 2 o'clock.

Daniel F. Zollner, a life long and highly respected citizen of this city, died early this morning following a long illness. He had been employed nearly all his life by his uncle, the late Daniel H. Zollner, and by his friendly and courteous treatment to all with whom he met, he had endeared himself to a large circle of friends who will deeply mourn his death. Besides his wife, who was Margaret Ryan, he leaves one daughter, Marjorie, and one son, Edwin; also one brother, George Zollner, all of this city. The funeral will be held from his late home, No. 41 Barnett street, Tuesday afternoon at 2 o'clock. Interment in the family plot in Montrose Cemetery at the convenience of the family.

**Wisdom from Bob's Lips.** As a child of three Wolfgang Mozart's wonderful playing on the harpsichord was the talk of Salzburg. He was only four years old when he composed a concerto so difficult that even his father, one of the most skilled violinists in Germany, could not play it. "Of course," said the father proudly, "no one can be expected to play it without diligent practice." A year later, when Wolfgang was only five years old, he was invited to give a recital in the hall of the university, where the music of his tiny fingers worked his auditors to a pitch of the wildest excitement.

## English Town Makes Specialty of Blankets

There ought to be a game—perhaps there is—in which a town's name is answered by its industry, an exchange observed. "Sheffield," cries one, "Knives," says the other, "Cheddar," cries another, "Cheese," replies one. To Witney, the answer, without any quibbling, is "Blankets." Witney is a town, you may say, with blankets wrapped up in them, indeed, devoted to them, and proud of them, as well it may be. For are not they the best in Britain? And this is no new industry, but a 500-year-old one, and it has ever brought prosperity to the little town and work for its people. Still older than its blankets is the town, the Witney of the Saxons, and a thank-offering of Queen Emma, wife of that Canute who sat beside the sea. It has its market place, where the Butter Cross of 1683 made shelter for the farmers' wives who came to sell their eggs and butter. But food is secondary to blankets in this little place. Behind the one long street of houses runs the Windrush, that serves the blanket makers with its clear waters. In the town stands the guild hall of the Blanket-Makers' company, with their arms and motto—a motto that gives good reason for the continuous prosperity of the blanket makers and their industry: "Weave truth with trust."

**Sweden Great Power During Middle Ages.** Cities of southern Sweden were among the greatest commercial centers of the civilized world during the Middle Ages. Stockholm and Lund ranked with London and Paris, says the Family Herald. They absorbed the commerce of the northern seas and were the admiration of thousands of travelers and merchants who passed through them and trafficked with them. Later Sweden was the great military power of northern Europe.

The ambassadors of the Swedish king were received with the utmost deference in every court. Her soldiers won great battles and ended mightily wars. The England of Cromwell and Charles II was unimportant and isolated in comparison with this northern kingdom, which could pour forth armies of gigantic blood warriors headed by brave and astute generals. Sweden is today a peaceful kingdom. Even the secession of Norway was accomplished without bloodshed. Denmark once dominated and tyrannized over both kingdoms.

**Keen Shot Kills Tiger.** With his long tail erect over his back and his head held high, came the monarch of the forest straight for us. His strength, grace and speed are impossible to describe. As he rounded a turn about 60 yards away I let him have it with my right barrel. The bullet went true to his mark. When it hit him, fall in the right eye, he was in the act of making a spring. The leap, for a good 20 feet, beyond, came, but when he touched the earth he was gone. The bullet had entered his brain, and not a mark was visible on his beautiful coat, nor was there the least twitching of his muscles after the fatal shot.

No one there had ever seen or heard of a tiger being shot without having a mark of any kind made on his skin. Brig. Gen. William Mitchell in National Geographic Magazine.

**Green Grocer.** "Have you any nice fresh eggs to day?" asked the grocery customer. "Madam," answered the man who had just started in the grocery business, "permit me to remind you that nice eggs are necessarily fresh and fresh eggs always nice. Moreover, if I have any I have them today. My possession of eggs yesterday or tomorrow does not affect the situation, therefore."

"Bump!" asserted the woman as she started for the door. "Eggs are not the only fresh things in this store. I'll do my trading elsewhere."—Boston Transcript.

**Err on the Other Side.** Many people are so busy telling the world what is wrong with it they haven't time to improve it.—Tribune.

## FOR SAFETY FIRST AND CAREFUL DRIVING

Here's a reminder, by no means gentle, that all Bronxites see when passing through the crowded section at One Hundred and Forty-ninth street and the Square. Yet, although speaking volumes for safety first and careful driving, thousands pass by this spot hourly and pay scant attention to the silent warning.

## DO NOT TALK TO DRIVER OF AUTO

There is a sign in the front of most city street cars bearing the words, "Don't Talk to the Motorman." That sign with even greater emphasis might well be posted on the front of every windshield.

The drive of an automobile has far more need to devote his attention exclusively to the work in hand, than has the motorman. The latter has a straight one way track ahead of him with two rails to guide him, the motorist has no such aids to safeguard his eye and hand.

**Distracts Driver's Attention.** Because passengers are in close contact with the driver there is a definite tendency to distract his attention. The engineer of a locomotive is located where he can give complete attention to the work of operating the train. What the passengers do or say, or think, in no way affects the final results.

Automobile passengers are to blame for much of the trouble drivers get into. On a count of a number of serious accidents it was found that in the majority of cases the drivers were accompanied by passengers. The relatively small number of instances where lone drivers are involved in serious accidents seems to support the theory that there is too much driving being done from the back seat.

Conversation is perhaps the greatest single cause of automobile accidents where passengers are being carried. The driver gets too deep into a subject that interests him, only to sacrifice his attention upon the matter of driving. The less drivers and passengers converse about matters which have no direct bearing upon the facts at hand the better it is for both parties. Some people feel that they must offer a surfeit of conversation in return for a driver's courtesy. Nothing could be farther from the truth.

**Timely Warnings.** Where a passenger is capable of giving the driver valuable warnings he should do so by all means, and the driver ought not to resent being warned when necessary. The passenger sees the road from a different angle. His advice may be of considerable value. "There's a car coming to our left," stated in a matter-of-fact way has prevented more accidents than all the exclamations and gasps, combined.

But to keep up a continual chatter on the topics of the day is as dangerous as it is unnecessary and frequently leads to a collision or an upset in the ditch.

**Tire Hint Given.** Don't neglect small cuts. These will often extend farther than you think. Dirt and wet get in, the fabric rots and a blowout follows. Look over your tires from time to time. Don't keep a spare tire out of use too long. Change over occasionally. A tire lasts better in use than exposed to the sun and rain on the running board.

**Painting Spare Tires.** Where it is desired to paint your old spare tires merely to make them look better, and not to preserve them against deterioration from the action of the elements, a good plan is to paint but one side and the tread of such tires, leaving the inner side just as it was, so that when a spare is to be used the unpainted side can be displayed.

**Cleaning Muller Box.** In cleaning the muller, after the part has been disassembled and the parts cleaned with kerosene, it is well to go over all the holes designed to soak up the gas with a sharp brush or fine taper reamer to make sure that these holes have not been reduced in size.

**Examination of Casing.** A very handy way to make easy the examination of the inside of a casing when looking for punctures, fabric breaks, or weak spots is a wedge made of a substantial stick of wood three-quarters of an inch thick and three to five inches long, depending on the size of the tire. This wedge may be slipped between the beads and pulled around the entire circumference of the casing with one hand, leaving the other free to hold the tire.

## Financial and Commercial

By Telegram to The Freeman. New York, March 7.—Despite heavy profit taking new forward movements took place in a number of the active stocks today. New specialty stocks were brought to the front and whirled upward from 1 to 4 points and spectacular movements were staged in a few of the industrial stocks, of which Wilson and Company was the most prominent.

On the understanding that an agreement between the creditors and the preferred stockholders of the company would be worked out next week, the common stock jumped about 6 points and the preferred stock 13 points in the early trading, only to react 9 points when reports reached the financial district that there was no assurance of an early lifting of the receivership of the company. The 7 1/2 per cent bonds of the company jumped 5 1/2 points in the listed bond market.

Railroad stocks were unable to advance and trading in this section of the market was limited to a few stocks, like Rock Island and Baltimore and Ohio. Texas and Pacific gained 2 points. St. Paul stocks were steady.

Grain markets recovered slightly from their heavy decline at the close of Friday's session. Cotton prices were up in the maximum of 15 points. British, French and Italian exchange also showed slight gains in dollar quotations.

Front taking increased in the last period and the market was heavy. Sales were well absorbed, however, and there were no wide breaks in stock prices. A few of the oil and railroad stocks came to the front in this period, but the general trend of prices was downward.

Loose Wiles Biscuit, Symington Company, Allis Chalmers and the Maxwell and Willis Overland Motor stocks were the principal centers of buoyant price movements in the first hour. Loose Wiles gained 4 points and sold at a new high at 97 1/2, and both of the motor stocks rose to new highs for the movement. Demand continued for the stocks of the Atlanta, Birmingham and Atlantic Railroad which equaled its best previous record. Cuyamel Fruit was strong and gained another point.

Weakness continued in the same section of the market as in yesterday's session: The radio stocks, local traction stocks, with Interboro Rapid Transit down 3 points to a new low at 23 1/2; and the shipping stocks. The general industrial list, including the oil, high prices equipments and specialties, steel, copper and tobacco stocks, were under profit-taking—not very heavy but sufficient to cause heaviness in the whole list.

## Creepers Is Convenient During Severe Weather

A creeper is a very handy thing about the workshop for getting under the car to make a repair or an adjustment. It not only provides a means of getting under the car, but keeps one off the dirty and oily floor, as well as protecting the health during cold and disagreeable weather. It is so simple to construct that no shop or private garage should be without one. It consists of a frame made from two by two ends and one-half by three boards about three feet long. A pillow is provided for a headrest and corner rollers, the latter permitting one to slide under the car with it.

**Spark Plug Test.** When there is reason to suspect a spark plug of not firing properly it may be tested by removing it from the cylinder without disconnecting the wire terminal and laying the metal part of the plug on the engine. By turning the motor over slowly the electrical circuit will then be completed by the commutator, and, if the spark plug is in working condition, a spark will jump between its points. If not, the probability is that the plug needs cleaning or is short-circuited and useless.

**Clean Cloth Upholstery.** Cloth upholstery may best be cleaned by beating curtains and beds lightly with a stick or carpet beater, after which the accumulated dirt is whisked off with a brush. Grease or oil may be removed by an application of lukewarm water and good soap, applied with a wooden cloth. There are a number of new wooden cleaners which will work very well on cloth upholstery, but gasoline and benzine have a tendency to spread instead of to remove dirt.

**Examination of Casing.** A very handy way to make easy the examination of the inside of a casing when looking for punctures, fabric breaks, or weak spots is a wedge made of a substantial stick of wood three-quarters of an inch thick and three to five inches long, depending on the size of the tire. ## FIRE PREVENTION.

Question—When a frame building burns down, what is left? Answer—The chimney alone, because it is built of brick. Chimneys are built of brick because they are fireproof. Why not construct the whole building of brick, that is Real Fire Prevention. An ounce of prevention is worth a pound of cure. When you build use brick exclusively. There may be slight increase in first cost, but always a large saving in maintenance. Building brick and sand. Terry Brothers Co., Tel. 1674.

## Boston Braves a Recruit Outfit

Boston National League Team to Witness a Great Turnover—Matthewson to Start Young Players at Start of Season, With Veterans Bench.

(By Davis J. Walsh.)

By Telegram to The Freeman. St. Petersburg, Fla., March 7.—Rome, we have been given to understand wasn't built between sunrise and sunset, nor was the Johnstown flood the result of defective plumbing. Both were more or less cumulative enterprises. So are the Boston Braves, according to the good word today from Christy Matthewson, a great winner and a good loser, as president and one of the leading stockholders of the Boston National League franchise.

He admitted the Braves to be an outfit with a negligible past and not the veriest suggestion of a present, but the allegation that they are without a future only provoked a tolerant smile.

Mr. Matthewson, it appeared, wishes to be placed on record as denying the allegation and denying the "alligator."

As matters stand, the Boston club figures to witness one of the greatest turnovers of player units in the modern history of baseball. When the bell rings, there is likely to be a recruit player in every position except short stop and the batteries, while highly esteemed citizens of other days, such as Melania, Padgett, Smith, Stengel, and Cunningham, gaze fixedly at the proceedings from the shade of the dugout.

"It is all a case of future reckoning," said Matty. "Melania may have slowed down a bit but he is still a fine first baseman. He might be ideal for present purposes, but since we are looking ahead three years, Burrus will be allowed to play the position long as he shows anything at all. Our idea is to stick the young players in for thirty or sixty days and let them do their worst. They will learn more that way than by sitting on the bench or playing minor league baseball and if they make the grade so much the better."

"Lucas, a pitcher, looks as though he might make a good second baseman and Dave Baneroff assures me that he plans to give the lad every chance to get by there. The same goes for Marriott at third base and probably Welsh in center field, although he hasn't reported because he wants a slice of the \$50,000 purchase price we are alleged to have paid for him."

"Neis will play right field and possibly Mann and Stengel will alternate in left field, although Sperber and Thomas may beat out either of them."

"If we wanted to pay the price we could pick up a 21 year old outfielder who is burning up a certain minor league," Matthewson said, but a man of that age would be of only temporary benefit to us."

"If we figured to be in the race it would be different. The Dodgers for instance, were justified in signing Ed Brown last year. It was a case of getting a man who would help them win some extra games and keep them in the race. Connie Mack did much the same with Lamar, while Washington is following suit this year, with Ruether and Gregg. They will serve their purpose while they last but they would not last long enough to do us any good."

The Braves, therefore are continuing what assets they may and letting their liabilities ride with the horse. Working on the theory that a man is innocent until proved guilty the club decided to look on all recruits as assets until proved otherwise.

Briefly these assets consist of Maurice Burrus, up from Atlanta, after being turned back by the Athletics several years ago; Bill Marriott, of Mobile, supposed to be ready for immediate action; Fred Lucas, once a recruit pitcher with the Giants and now regarded as a promising second baseman; Jim Welsh, the costly young man from Seattle, who is expected to run the regular out fielders right off the reservation. Ed Sperber, recalled after a brief sojourn at Shreveport, and Herb Thomas, Dayton product, who is alleged to have gladdened

the eye with a few sparkling performances in Boston late last fall. Frank Gibson, and George O'Neill remain as the regular catchers. The pitchers include Jose Barnes, a good one, Joe Gnewich, a star in 1923 but a flop last year, Rube Marquard, said to be very fine indeed, Larry Benton, Tim McNamara, John Cooney, and Kyle Graham. There are others but posterity probably will know them not.

## LAST NIGHT'S FIGHTS.

Filipino Fighter Looked Much Better Than Martin.

By Telegram to The Freeman. Milwaukee, Wis., March 7.—Eddie (Cannonball) Martin of New York may be the world's bantamweight champion, but if a decision had been permitted, and they had battled at the bantamweight limit of 118 pounds, there likely would be a new champion today and that boy would be the bronze skinned Filipino, Pete Sarmiento.

The Filipino had the best of the encounter here last night, delivering the cleaner blows and walloping oftener than the champion. Martin's punches were more effective than Sarmiento's, but they not slow up the Filipino. It was a smash of a fight and showed some desperately hard milling.

## Renault Won Easily.

Detroit, March 7.—Jack Renault lambasted Homer Smith of Kalama-zoo for ten rounds last night but couldn't finish him. Renault won every round with ease and had Smith bleeding from cuts about Homer's optics. Butch Carr of Toledo knocked out Willie Strobel of Saginaw in four rounds. Sergeant Norcross of Toledo put away Jack Barkovick in two rounds. Adam Keith of Toledo shaded Joe Hall of Bridgeport, Conn.

## Ruth in Law Suit.

By Telegram to The Freeman. New York, March 7.—Babe Ruth was up again today, not at the plate, but as defendant in a law suit for \$7,700. The action was brought by Harry Lichtenstein and came to light when the supreme court refused a plea for an early trial. Lichtenstein says the home run slugger incurred the obligation in Mexico in 1924, but did not give the nature of the indebtedness.

For Sale. Great closing out sale, March 11, 1925, at J. J. Hasbrouck's Hurley. Advertisement.

## Munn Wins Again.

By Telegram to The Freeman. Cleveland, O., March 7.—Big Wayne Munn, champion heavyweight wrestler, made quick work of Wallace Duguid, Canadian champion, at Public Hall here last night. Twice in eleven minutes, using the half Nelson and croch hold, he threw the big Canadian. Strangler Ed Lewis, from whom Munn recently won the title, wrestled to a draw with Bill Demetral in the semi-final.

## Immense Statue

J. W. McSpadden in his book on American sculptors says that to carve such a huge figure as the statue of Lincoln in the Lincoln Memorial from a single block would be impossible. Twenty-eight blocks of Georgia marble, perfect and without fissures or seams, were used in creating this statue. The total mass measured over 4,000 cubic feet. The statue weighs 270 tons.
